

## Alexander Rose Warranty, Care & Maintenance

### Cornis

The beautiful wooden benches in this range all feature a curved back, which fits to the shape of your body for ultimate comfort.

Each item has a bespoke back rail and arm, giving the benches their classic styling.

### Maintenance

We recommend treating Cornis products annually with oil to maintain the brown colour for longer.

From time to time, check hardware and tighten any screws or bolts that may have come loose over time.

- The Warranty does not apply to glass, or cushion stains/water damage where cushions have not been stored correctly when not in use.

## Timber Treatments

Over time, as part of the natural weathering process, cracks and splits will appear in the wood, particularly on the end grain and to a lesser extent on the surface.

The drier the wood, the more cracks will appear due to the evaporation of natural oils and minerals from exposure to the elements. As with most hardwoods, this is a normal characteristic for any timber which remains outdoors.

Alexander Rose's timber furniture is designed with this in mind and its strength and durability will remain unaffected. Wooden furniture can be treated with wood treatments available online.

## Fabric Treatments

To keep your cushions looking their best, clean regularly using a Fabric Cleaner. Dampen the fabric, spray the cleaner onto the affected area and leave for 3-10 minutes, allowing it to work its magic. Rinse with clean water and allow to dry. Add a layer of protection once dried, using the Fabric Shield.

This adds a layer of water resistance and helps to prevent stains

## Cushion Cleaning Tips

1. Brush off any loose dirt.
2. Spray the area with our Fabric Cleaner and leave for 10 minutes.
3. Work the solution into the fabric with a damp cloth.
4. Rinse away with cold water.
5. Allow the fabric to air dry.
6. Spray the cushion with our Fabric Protector to prevent future staining and to add a layer of water resistance.

Do not dry clean, iron, steam iron or tumble dry cushions.

Do not use bleach or strong detergents
